Attorney Docket No.1148D

## IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Marc Albertsen et al. l Art Unit: 1638

Serial No.: 10/021,657

Filed: December 14, 2001 1 Examiner: A. Kubelik

For: Nucleotide Sequences Mediating

Fertility and Method of Using Same 1 Confirmation No. 5787

## **DEPOSIT STATEMENT**

Commissioner for Patents Washington, D.C. 20231

Sir:

The undersigned attorney, an attorney of record in this application, makes the following statement regarding deposits:

A deposit of host *E. coli* having a vector with DNA insert SB2008.1 is and has been maintained by Pioneer Hi-Bred International, Inc. since prior to the filing date of this application. Access to the deposit will be available during the pendency of this application to the Commissioner of Patents and Trademarks and persons determined by the Commissioner to be entitled thereto upon request. Upon allowance of any claims in the application, all restrictions on availability to the public of such material will be removed by affording access to a deposit of the microorganism with the American Type Culture Collection (ATCC) Rockville, MD. Additionally, applicant will meet all the requirements of 37 CFR§1.807, including providing an indication of the viability of the sample when deposit is made. The microorganism deposited with the ATCC will be taken from the same deposit maintained by Pioneer Hi-Bred International

## CERTIFICATE OF MAILING (37 C.F.R. § 1.8(a))

I hereby certify that this document was sent by facsimile transmission to The US Patent Office, AFTER FINAL, ATTN: A. KUBLIEK, facsimile (703)872-9306 on the date indicated below.

Aug 24,2005

since prior to the filing date of this application. The deposit will be maintained in the ATCC depository, which is a public depository, for a period of 30 years or five years after the most recent request, or for the effective life of the patent, whichever is longer, and will be replaced if it becomes nonviable during that period.

All restrictions on availability of the aforementioned deposits will be removed irrevocably upon the granting of a patent on the captioned application or a continuing application based thereon.

Respectfully submitted,

Patricia A. Sweeney

ATCC Designation

p Bluescript SK- in SOLR Escherichia coli, SB200-8.1

98931

a scientific description X a proposed taxonomic description indicated The deposits were accompanied by: above. The deposits were received October 16, 1998 by this International Depository Authority and have been accepted.

We will inform you of requests for the strains for 30 years. AT YOUR REQUEST: X

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strains.

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested October 22, 1998. On that date, the cultures were viable.

International Depository Authority: American Type Culture Collection, Manassas, VA 20110-2209 USA.
